Colorado Blue Spruce

The FISCHER NURSERIES

EASTON, PA.

Greenhouses and Office
24th St. & Wm. Penn Highway

Showing an attractive planting of Evergreens between walk and curb and an equally attractive border of shrubs and perennials leading to house.

NORWAY SPRUCE. This familiar Spruce is more generally used than any other. It grows rapidly, does well in most soils and withstands the bleak, cold

winds of winter. If left untrimmed, the trees spread out magnificently and make desirable specimens. They make splendid windbreaks and shelter belts. If planted in hedges and kept sheared, they become impenetrable and are as good for this purpose as any evergreens.

BABY TREES, 2 YRS. OLD—HEIGHT 6-8 IN. 6 TREES, \$1.10

PYRAMIDAL ARBORVITAE. Of straight, erect growth and slenderly columnar in form, densely branched with foliage of a rich, dark, glossy green. Very distinct and formal and invaluable for the striking effect when planted to center groups or in pairs at entrances, framing doorways or windows to break the height of tall houses.

BABY TREES, 6-8 IN. HIGH, 2 YRS. OLD—6 TREES, \$1.10

CHINESE ARBORVITAE. Smaller-growing than the American, more compact and regular and pyramidal in outline, with fine, feathery, deep green foliage. Suitable for planting as a single specimen or in combinations and groups.

BABY TREES, 2 YRS. OLD, 6-8 IN. HIGH—6 TREES, \$1.10

AMERICAN ARBORVITAE. One of the best; very handsome with dark green foliage. Grows rapidly and easily and in almost any soil. Can be sheared and makes a fine ornamental hedge with regular clipping; will keep at any desired height. Allowed to grow, will make a tall screen when planted closely.

BABY TREES, 8-12 IN. HIGH, 2 YRS. OLD—6 TREES, \$1.10

Norway Spruce

GLOBE ARBORVITAE. A perfect globe when well grown, the spread usually equalling the height. Foliage of light green.

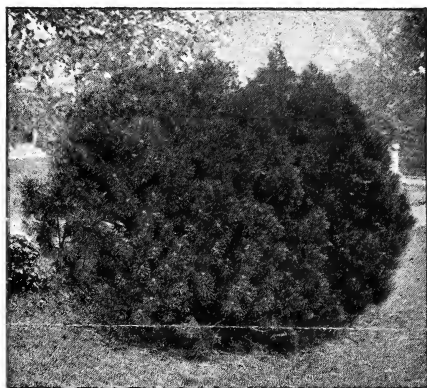

BABY TREES, 6-8 IN. HIGH, 2 YRS. OLD—6 TREES, \$1.10

COLORADO BLUE SPRUCE (illustrated on front cover). Tall, pyramidal and regular in outline, with rich, light, bluish-green foliage; perfectly hardy and one of the most beautiful native evergreens, its unusual color affording a striking contrast to the dark-green Spruces.

2 YR. BABY TREES, 6-8 IN. HIGH—4 FOR \$1.10

SCOTCH PINE. One of the hardiest of the Pines; of dense growth and bluish-green foliage. Splendid for mass planting.

2 YR. TREES, 6-8 IN. HIGH—6 TREES, \$1.10

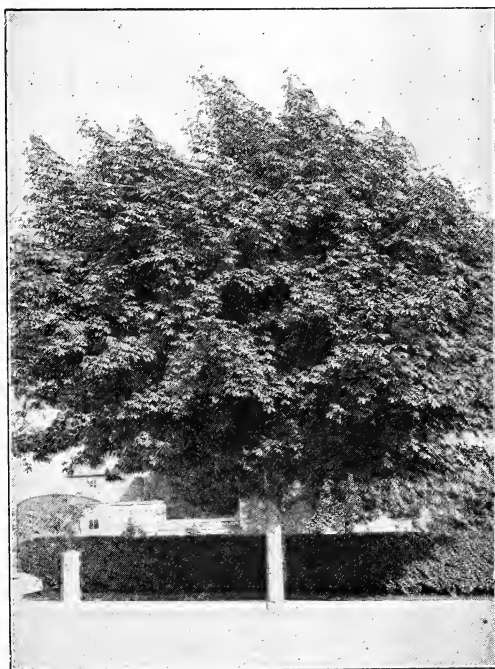

Scotch Pine

BEAUTIFY YOUR LAWN AND HOME AT SMALL COST

Six evergreen Baby Trees, 2 yrs. old, 8-12 inches high. Norway Spruce, Pyramidal Arborvitae, or Arborvitae compacta. These are the best evergreens for the soil and conditions where other varieties are difficult to grow. These soon grow into handsome trees worth many dollars.

6 FOR \$1.10 POSTPAID

Norway Maple

NORWAY MAPLE. One of the best shade trees for all purposes, whether in lawn or roadside. A favorite street tree. Grows to large size and is of neat, compact habit with rounded head.

BABY TREES, 6-8 IN. HIGH—2 YRS. OLD, \$1.10 FOR 6

JAPANESE BARBERRY. A plant of many uses and varied attraction. Beautiful every month in the year. In spring the leaves are bright green, turning to deeper green in summer. In the fall, the leaves take on all the autumn colors of red and yellow and bronze. The small, inconspicuous flowers are fragrant and are followed by berries that ripen a bright red and hang on nearly all winter.

2 YR. OLD PLANTS—10-12 IN. HIGH—\$1.10 FOR SIX

*Service Is
Our Watchword*

*What is more beautiful
than a garden of flowers?*

Beautify Your Home With Hydrangeas

HYDRANGEA (*Paniculata Grandiflora*)

One of the finest flowering shrubs. Grows 8 to 10 feet high. In bloom during August and September when very few shrubs are in flower. Perfectly hardy. White, Blue, Pink.

Oriental Poppy

3 PLANTS FOR \$1.10

GIANT ASTERS

Large flowering, early and late varieties. White, Rose, Lavender, Purple and Shell Pink. Blood Red, Silvery. Florists' selected beauties.

40 PLANTS (TRANSPLANTED), \$1.10

ORIENTAL POPPY

Scarlet, Orange, Pink. Flowers measure 8 inches in diameter. Last forever. One of the most striking and showy of all hardy garden plants. The tall stems, three feet in height, bear great flowers of brilliant scarlet and pink, six or eight inches across. The plants thrive well either in the full sun or in partial shade and bloom April to June. Perfectly hardy and easily grown. Nothing can equal these poppies during their period of flowering for a gorgeous display of a rich, brilliant coloring.

6 PLANTS FOR \$1.10

Popular Favorites

BUTTERFLY BUSH (Buddleia)

One of the most desirable summer-flowering shrubs. It dies down to the ground in winter, but each spring throws out four to five-foot stems in numbers, making a bushy plant covered from July until frost with delicate lilac-like flowers of dainty beauty and fragrance, attracting so many butterflies as to give it the name Butterfly Bush.

UNITED LITHO. & PR. CO., ROCHESTER, N. Y.

Etoile de France

Radiance (H. T.)—Brilliant rose-pink buds, opening to well-formed shining flowers with lighter tints on the reverse of the petals; globular in shape and very fragrant. The plant makes splendid growth, has wonderful blooming qualities.

Red Radiance (H. T.)—An even better Rose than its parent, Radiance, in habit, bearing big, globular flowers of deep rose-red on strong, individual canes which are freely produced all summer until frost.

Red Columbia (H. T.)—A brilliant scarlet-crimson of exquisite shade, a sport from Columbia; semi-double, one of the freest bloomers in existence; produces beautiful foliage in profusion.

2 PLANTS FOR \$1.10

Etoile de France. Rich velvety crimson, beautifully formed buds and open blooms on stiff stems; makes a fine, strong plant.

Hermosa. Rose-pink blooms, very double; flowers in great profusion.

Kaiserin. Pure white, exquisite in bud and bloom.

Killarney Pink. Pink, half double, especially fine in bud; blooms profusely.

Killarney White. Like the Pink Killarney except in color.

Sunburst. The color is orange-copper or golden-orange and golden-yellow; edge of petals lighter; all intense shades, extremely brilliant in effect. Some call the color cadmium-yellow. It is the yellowest of all Roses in the everblooming class.
